## 1. Our Platform

We are a Canadian corporation based in Saskatoon, SK, with a mission to help Canadians save the most capital on their property assets.

The RequestViewing.com platform is solely dedicated to commercial and residential properties. Its purpose is to allow you to prominently advertise and view available properties for sale and for rent.

We also provide a list of trusted professionals such as; real-estate agents, photographers, home inspectors, mortgage brokers, lawyers, movers, etc. to assist with making your transaction a success.

We provide access to effective lawn signs for advertisement, topic appropriate blogs, how-to videos, market trends, legal forms and back end metrics/data.

Our platform gives you the space you require to input as much information as you choose to include regarding your property. This will help to reduce on multiple enquiries requesting additional information.

Users have the ability to access your listing data 24/7. Monitor the number of times your listing has been viewed, obtain direct contact to your interested parties, renew and update your ad, etc.

## 2. Our Platform Advantages

### ► User Friendliness

Our user focused site is user friendly, and provides you with simple step-by-step info on "how to post your ad" to "how to finalize the sale". Our site is so simple to use that perhaps you won't need any additional info, however if you do, you can find all that you need under the resources tab.

### ► Focused Platform

RequestViewing.com is a focussed platform, allotted to the sale and rental of properties. – nothing else! We promote the site to attract the attention of prospective buyers in targeted markets.

### ► Restriction Free

Post as many properties as you wish at No Charge.

### ► An Open Source Resource

Our site brings full exposure to your listings. We allow properties for sale by Real-estate Agents and Private Sellers, all in one place.

### ► Branded Marketing

We can provide our colourful branded lawn signs catered to your listings. Signs are available in unique shapes and sizes, to help set your listing apart. We incorporate QR codes for ease of search. We also incorporate a digital listing ID number to index and allow easy reference queries.
